Monthly Wing Meeting,  
Work Party

## A Call to Action:

## New Membership Recruitment Volunteering Opportunities Wing Staff Position Openings

The 2013 flying season is almost upon us, and the Wing needs YOU to help make our season a success!

Whether it's helping wash an aircraft, crowd control at public events, or helping to fix or fly an aircraft, the future of the Utah Wing depends on the dedication of our volunteers. Be it one hour a day, one day per week, one weekend a month or even a few days throughout the year, the Wing relies on the selfless dedication of our volunteers to help continue our noble cause of preserving one of the greatest pieces of our nation's history.

The future success of our Wing also requires us to continually recruit new membership. New members bring fresh perspectives, new energy and drive, and of course can help lighten the workload for the rest of us! I challenge each of you to bring 3 new interested parties to our meetings, work parties, fly-ins and other events. Even if they do not decide to join immediately, the seed of volunteerism will be planted, and word will be spread about our Wing, bringing the potential for future volunteers.

Over the next coming months, we will be conducting an election for select Wing staff positions. New volunteers in these staff positions will help the wing develop it's direction toward our goals, as well as give an opportunity for interested volunteers to step up to leadership and help make a difference in the organization.

Open staff positions and basic job descriptions include:

**Wing Leader:** Responsible for preparing meeting minutes and presiding over wing meetings. Provides overall leadership of the Wing, supervises financial health and reports, Two years of CAF service is required, and a business, aviation, or mechanical background is preferred.

**Finance Officer:** Responsible for financial recordkeeping, as well as determining volunteer's voting eligibility.

**Safety Officer:** Safety is EVERYONE'S responsibility! The Safety officer works closely with the Maintenance officer, and includes supervising all ground movements of flight operations.

A full job description of these open positions can be found in the Unit Manual, in the Member section of the [CAF Website](#).

If you are interested in filling a staff position, or would like to nominate someone who you feel would be a good fit for one of these positions, please contact Lindamaire at: [lmbransomb@gmail.com](mailto:lmbransomb@gmail.com) by May 10, 2013 !

## Stearman Annual Nearing Completion!

*Our photographers spotted the rare Hominus Aviatus species in the wild actively engaging in something never before documented : performing actual work!*
